Chapter 2: Food and Digestion...Chapter Project

Due Date: _____

Comic Strip

...with the information gathered from your notes for this chapter, create a comic strip with at least 6 "cells" and no more than 12 "cells". The comic strip will be an "adventure strip." You will set up the "cell" size measuring 3" X 3" and use colored pencils to design the comic strip. Be creative with the digestive journey. Inside each "cell", you will include animation and dialog describing what is happening on the digestive journey. You may wish to create characters for this exciting adventure. Be sure to introduce them to your audience...your classmates. The comic strip should be easy enough for a 3rd grader to understand.

You will turn in the comic strip on the due date.
